Judy McClish

REALTOR® is a registered collective membership mark which identifies a professional in real estate who is a member of the National Association of REALTORS® and subscribes to its strict Code of Ethics.

To Whom It May Concern:

Brad Andersohn has been involved with the Solano Association of REALTORS® since 1998. He has been an active participant in many activities such as organizing our first Tech Faire, which is now an annual event. He is the chairperson for the Technology Committee, which oversees web site maintenance, training and education of computer software and hardware applications for the members of the association. He is also a certified trainer for the CAR Winforms and Palm Pilot usage.

He initiated a picnic/softball event that has become a popular annual event, as well as helping with other charity functions and fund raisers such as Casino Nite and Make a Difference Auction. With his musical talent he conducted and preformed an annual Christmas Program that we surely will miss.

In 2000 he was selected from among 100 other nominees by the Board of Directors to be awarded Affiliate of the Year for his outstanding service and dedication.

He never hesitated to come to our assistance when my staff or I had computer problems. We are truly losing a friend and colleague. If you have any further questions please feel free to contact me.

Sincerely,  
  
Judy McClish  
Executive Vice President
